*M - Star Milker designator for Kinders. The number means generations that have earned their star

(IE: Floribunda has 11*M because 10 consecutive generations before her in her line have earned their milk star too!)

Because the Kinder does must complete the same requirements as their Nubian ancestors, first generation does can add on to their Nubian dam's star record.

(F) Star earned for butterfat

(FM) Star earned for lbs. of milk & lbs. of butterfat

(M) Star earned for milk only

(P) Protein production. There hasn't been recognition of this sadly.
